

‘PFS’

The TROX ‘PFS’ Diffuser is designed as a swirl diffuser with a perforated square face that fits onto a standard 600mm by 600mm T-bar ceiling, suitable for supply and return air application. It comes in only ONE size. But it can be supplied with blanking plates fitted to the rear of the diffuser face to reduce the air flow rate if required. This diffuser is designed to provide a radial air flow discharge pattern with high induction flow rate for supply air application only.
